

GENERAL MANAGER

JOB REF: 0612

Our client is a leading provider of material handling equipment worldwide. They design, manufacture and support an extensive range of world class products that are used in a wide variety of applications. As a result of continued growth, they now wish to appoint an experienced General Manager to lead the business through the next phase in the Company's strategic growth plan.

Job Purpose

Oversee the day to day running and expansion of the existing business and lead the management team. The successful candidate will have a proven track record in leadership with a clear ability to develop and grow a team, as well as to promote and deliver excellent levels of performance right across all business management functions.

Responsibilities:

- Manage and oversee various departments within the business ensuring KPI's are met
- Develop and implement an ambitious improvement plan, streamlining business processes and systems.
- Translate the company's strategic growth plans into operational plans – ensuring goals are achieved
- Establish a culture of Continuous Business Improvement
- Identify areas of poor performance and work with management to implement plans to improve and resolve
- Restructure business activities as is necessary to create efficiencies and reduce workloads
- Deal with day to day issues which arise within production or any of the departments – offering direction and support to managers as required
- Analyse and improve operational expenditure within the business

Person Specification

- A minimum of 3 years general management experience in a similar role
- Excellent experience managing various departments and delivering on business objectives
- Highly motivated with a passion for driving operational change within business
- Experience working within the Engineering Industry at Senior Management Level (desirable)
