

COSTING ESTIMATOR

JOB REF: 0719

Our client delivers innovative recycling solutions to any business in the waste processing industry on a global level. With year on year growth and with the drive and enthusiasm to build on this they wish to recruit a high-performing person as Costing Estimator. You will be joining a successful business that prides itself in delivering high quality products with excellent customer service in a global market.

Job Purpose

You will be responsible for estimating the cost of projects with a view to provide detailed quotations to potential customers. This is very much a key role in the business where attention to detail, excellent numerical skills and good time management are fundamental to success.

Responsibilities:

- Consult with the sales function in order to prepare quotes for jobs
- Review and understand technical information as provided by the engineering department and from this estimate the appropriate level of costs
- Liaise with engineers, production personnel and other departments to discuss projects and resolve issues
- Identify any risks or gaps in costing and allocate appropriate contingency
- Prepare detailed sales orders for engineering, purchasing and production

Person Specification

- Educated to degree standard or relevant experience to substitute for formal education
- An understanding of engineering drawings
- Excellent numerical skills
- High degree of competence in Microsoft Office
- Good time management & the ability to organise/prioritise work to meet deadlines
- Ability to give necessary attention to detail and actively listen to what others are saying and understand their points
- Strong negotiating skills
- High degree of integrity as data confidentiality is paramount to this position
- Ability to work on own initiative
