

DATA DEVELOPER

JOB REF: 0725

Our client specialises in software for the agricultural industry enabling better use of data to improve the overall productivity of the farm. Following a recent acquisition, the Company would now like to add another Data Developer to their team.

Job Purpose

Reporting to the Product Development Manager, the successful candidate will have strong SQL experience and will be responsible for delivering solutions within the core asset of our business where we acquire, transform and analyse data for our clients in the veterinary and animal health sector.

Responsibilities:

- Create SQL scripts, stored procedures, and functions for various business requirements
- Design data acquisition, transformation and analytical solutions from initial data assessment to development and deployment of models
- Work closely with our business team, to on-board new customers through existing models and making changes where required to improve data quality within each customer's specific environment
- Write queries with optimal performance as per the business requirements
- Coordinate with the Product Development Manager, team members and other stakeholders (including clients) to meet business objectives Evaluate SQL - at both a personal and team level - to ensure it meets industry standards, is valid, optimised, and appropriate

Person Specification

The successful candidate will have experience and knowledge of the following technologies:

- SQL (MS SQL Server 2012 onwards) creating SQL queries and stored procedures
- Extensive working exposure in OLTP environments
- Data analysis and trending
- Maintaining coding standards with version history
- Data Modelling: Relational database design and data warehousing
- Experience in the following is beneficial:
 - Other RDBMS: e.g. MySQL, PostgreSQL, MSAccess
 - Database indexing and performance tuning

Remuneration Package

On offer is a salary of £32,000 - £40,000 per annum depending on experience + benefits, working as part of a small team based near Cookstown / Magherafelt. Flexible working and some working from home is also offered.

If you can apply yourself with creativity and intellectual rigour, have exceptional hands-on problem-solving skills and can adapt rapidly to changing circumstances, you'll find there are significant opportunities to progress.

If interested in this role, please contact Con Gallagher on 028 8676 0044 for a confidential chat or submit your CV via the link.

The Company reserves the right to vary criteria at the shortlisting stage.
